About Me

- **About:** I am a passionate software developer with experience in full-stack web development, data analytics, and machine learning. I have a strong foundation in Python, Django, PostgreSQL, and front-end technologies. I am always eager to learn and solve real-world problems through technology.

Work Experience

- **Experience 1:** Software Engineer Intern – Dexur Enterprise Pvt. Ltd. (Aug 2024 – Present)
Developed REST APIs using Django for data analytics. Worked with PostgreSQL to optimize query performance. Implemented authentication modules for secure user access.
- **Experience 2:** Web Developer Intern – ABC Tech Solutions (Jan 2024 – June 2024)
Designed and deployed responsive web applications using HTML, CSS, JavaScript, and Bootstrap. Integrated third-party APIs for real-time data visualization.

Courses

- **school:** Data Engineering,ETL Pipelines,Statistics,Probability
- **colleage:** Django, Spring Boot, Angular, React, REST FUL API
